Distinguished guests and colleagues,

Welcome to the 22nd Triennial Congress of the International Ergonomics Association, IEA 2024, here at the beautiful Jeju International Convention Center. On behalf of the Ergonomics Society of Korea and the IEA 2024 Organizing Committee, it is our honor to welcome you to South Korea and the beautiful island of Jeju.

We are delighted to host this prestigious event in Korea for the second time since IEA 2003 in Seoul, especially on Jeju, an island celebrated for its natural wonders and rich cultural heritage. Over the next five days, from August 25th to 29th, we will immerse ourselves in groundbreaking research, innovative practices, and engaging discussions that will shape the future of ergonomics.

Our theme this year, "Better Life Ergonomics for Future Humans," embodies our commitment to advancing our field in ways that will positively impact generations to come. In an era of unprecedented technological and societal changes, our role in creating more comfortable, efficient, and sustainable environments for future humans has never been more crucial. We have prepared an exceptional program featuring world-class speakers, thought-provoking panels, and dynamic symposia sessions to explore this theme in depth. Together, we will delve into how ergonomics can enhance quality of life across various domains, from workplace design and healthcare to AI, emerging technologies, and safety.

We extend our heartfelt gratitude to our dedicated program committee, generous sponsors, and valued partners who have made this congress possible. Special thanks go to our main sponsor, LG Electronics, as well as the IEA Scientific Committee, INCOSE HSI, and ISO SC3 for their invaluable support and collaboration.

On behalf of the ESK and the IEA 2024 Organizing Committee, we sincerely thank all attendees, speakers, sponsors, and volunteers for their contributions. We hope you find your time here in Jeju inspiring and memorable as we work together towards better life ergonomics for future humans.

Thank you, and once again, welcome to IEA 2024!

Warm regards,

Sang Ho Kim, Conference Chair
President, Ergonomics Society of Korea

We are pleased to welcome you to the HSI2024 joint conference!

The Third INCOSE International Conference on Human Systems Integration (HSI) is a joint conference with the 22nd Triennial World Congress of the International Ergonomics Association (IEA) and is in cooperation with the Association for Computing Machinery (ACM) Special Interest Group on Computer-Human Interaction (SIGCHI).

HSI emerges from the combination of human-centered design (HCD) and systems engineering (SE) as a highly participative and incremental process. In 2020, INCOSE and IEA (International Ergonomics Association) signed a Memorandum of Understanding that fosters this combination and partnership. We are proud as co-chairs to organize this conference in coordination with the 22nd Triennial World Congress of the IEA.

HSI requires creativity (thought as synthesis and integration) as well as experience, awareness and validation (thought as experimental tests, operations quality analysis, discovery of emergent properties, standards, and so on) for the design and management of socio-technical systems. Modeling and simulation capabilities tremendously improve possibilities of taking into account human factors during the early stages of engineering design and throughout the entire life cycle of systems. Operational personnel can be involved in virtual operations tests using human-in-the-loop simulations to determine appropriate requirements for effective design and development.

The conference intends to inspire and engage researchers, innovators and practitioners in productive discussions of how technologies, organizations, jobs and responsibilities of operations actors, engineering designers, certifiers, trainers, maintainers and many other technology stakeholders can be reshaped to meet near and long-term goals of safe, efficient and comfortable operations.

The question "Integration!" will be the primary focus of HSI2024. We're moving towards a deeper digital society where people need to retain control and management of their affairs in the most tangible way, especially with the rise of artificial intelligence. Therefore, we encourage the dialogue between industrial sectors that includes aeronautics, space, medicine, automotive, oil and gas, defense as well as other fields involved in Industry 4.0 toward Society 5.0.

HSI2024 will bring together manufacturers, operators, government, research centers and academia to focus on improving industrial teams of teams. The current economic environment puts additional pressure on all of us to make industrial operations more efficient and affordable. Conference topics include innovative methods, techniques, tools and technology as well as laboratory research and field investigations, industrial developments and perspectives. Technical papers and panels contain a wide range of topics including design, evaluation, certification and rule-making, training, maintenance, in-service experience and incident/ accident investigation.

Thank you for attending and participating in this insightful joint conference!

2024 산업안전 대진단

“안전보건관리체계” 진단하고 개선해 보세요!

산업안전 대진단, 무엇인가요?

- 중대재해 예방 및 중대재해처벌법 대비를 위해 중소기업(5~50인 미만) 83만개소의 안전보건관리체계 구축·이행을 자가진단하고, 정부의 맞춤형 지원사업과 연계하여 안전수준을 개선하는 것입니다.

산업안전 대진단, 왜 해야 하나요?

- 「산업안전 대진단」을 통해 중소기업에서 중대재해처벌법에 대비하고 안전보건관리체계를 구축·이행하는데 도움을 받을 수 있습니다.
- 궁극적으로는 사업장의 안전보건관리체계 구축 등 안전 및 보건 확보 의무를 이행함으로써 중대재해를 예방할 수 있습니다.

산업안전 대진단, 어떻게 참여할 수 있나요?

- (온라인) PC·모바일로 접속하며, 접속 방법은 아래의 절차를 따라하세요.

1단계

(PC) 안전보건공단 홈페이지 접속
☞ <http://www.kosha.or.kr>
(모바일) 우측의 QR Code 스캔

2단계

누리집에 표출된 “산업안전 대진단” 팝업을
클릭 후, 절차에 따라 진행

QR Code

- (오프라인) 우편·방문을 통해 안내받은 자가진단표를 작성하고, 산업안전 대진단 상담·지원센터를 통해 상담·지원 받을 수 있습니다.
- (산업안전 대진단 상담·지원 문의) ☎ 1544-1133

산업안전 대진단, 어떻게 진행 되나요?

대진단 실시

- 자가진단표 (10개 항목)
- 온·오프라인 진단

대진단 결과

- 안전보건관리체계 수준 확인
- 대진단 결과 확인

안전개선 노력

- 정부 지원 신청 (컨설팅/기술지도/재정지원 등)
- 자체개선

대진단 상담·지원

- 대진단 상담·지원 센터 운영
- 맞춤형 지원

산업안전 대진단, 어떤 혜택이 있나요?

- 첫째, 대진단 실시 후 지원신청 사업장은 신속한 상담·지원을 받을 수 있습니다.
- 둘째, 상담·지원센터에서 사업장 맞춤형 지원을 받을 수 있습니다.
- 셋째, 중대재해를 예방하고, 중대재해처벌법에 대비할 수 있습니다.
